THANKS FOR PURCHASING THIS ITEM

HOW TO EDIT

01. PLACE YOUR DESIGN: Double click on smart object layer thumbnail. It will open a new window; paste your design in this window and close tab to save changes.

01. CHANGE BACKGROUND TEXTURE: Double click on "Bckground" smart object layer thumbnail. After open new window, paste your pattern/texture background. And close tab with save change.

01. CHANGE BACKGROUND COLOR: To change background color, first disable texture background layer clicking eye icon in left side of this layer. This layer is located under "objects" group layer. Expand this group layer and disable layer. Go to top of the layer panel and enable "BG Color" layer. Double click on layer thumbnail and slide the Hue bar to adjust the color.
