

**Cock Tail template**

**Install instruction**

**By: Sora Template**

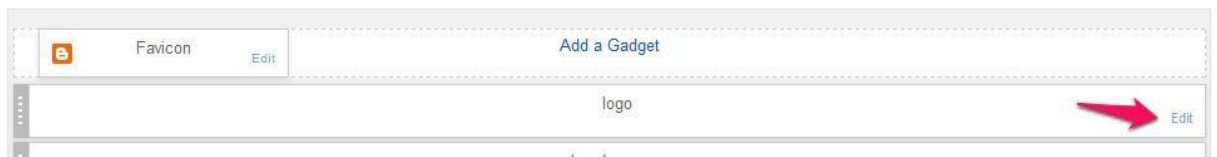

1. Download template file.
2. Open template file in a word editor such as notepad++

Press Ctrl+F to enable search function. Search for the term "<!--author-->", it will show you the code of post author bio which displayed under each post

```
<div class='post-author'>
<!--author-->
<h4 class='block-
heading'><span>About the Author</span></h4>
<div class='author-img'>
<img alt="
class='avatar avatar-110 photo' height='110' src='avatar goes here' width='110' />
</div>
<div class='author-text'>
<h4><a href="
rel='author' title="">Author name</a></h4>
<p>author bio
goes here</p>
<span
class='author-share'>
<a
href='#'><i class='fa fa-facebook round-icon' /></a>
<a
href='#'><i class='fa fa-twitter round-icon' /></a>
<a
href='#'><i class='fa fa-instagram round-icon' /></a>
<a
href='#'><i class='fa fa-google-plus round-icon' /></a>
<a
href='#'><i class='fa fa-pinterest round-icon' /></a>
<a href='http://#.tumblr.com/'><i class='fa fa-tumblr round-icon' /></a>
</span>
</div>
</div>
```

Add your bio and social links to the code above.

3. Save template and upload to Blogger
4. Open Blogger Dashboard -> Layout tab
5. To edit logo, click on logo widget

6. Now Add your logo.

6. To edit header menu

Click edit link in header menu widget

Open folder plugin, copy the content of file headermenu.txt and paste into widget content

Title

header-menu

Content

**b** *i*   Rich Text

```
<ul class='menu' id='menu-mainmenu'>
<li><a href='#'>Category</a>
<ul class='sub-menu'>
<li><a href=''>Category</a></li>
<li><a href=''>Category</a></li>
</ul>
</li>
<li><a href='#'>Category</a>
<ul class='sub-menu'>
<li><a href=''>Category</a></li>
<li><a href=''>Category</a></li>
</ul>
</li>
```

Pls change the link to your label/category. Structure of link to category/label as following:

[http://blog\\_name.blogspot.com/search/label\\_name](http://blog_name.blogspot.com/search/label_name)

For example, you want to add a link to label "aaa" in your blog name yyy.blogspot.com, link to label "aaa" will be as following:

<http://yyy.blogspot.com/search/label/aaa>

#### 7. To edit top slider

## POPULAR POSTS

Click edit link in SLIDE1 widget

Add label name which you want to show posts into widget content

---

Title
