you need access token for instagram widget to work Go to this url-> [Click here](#) to Generate access token

Get Your Instagram Access Token

In order to display your Instagram photos on your own website, you are required to obtain an Instagram Access Token. You can do this by clicking the generator button. After clicking, you'll be prompted by Instagram to authorize Pixel Union to access your photos, and you may need to enter your Instagram login credentials.

Generate Access Token

Click On that Button

You'll be brought right back here and, if all went well, your Instagram Access Token will be ready for you. Copy and paste this access token into the correct field. Remember
