1. Installation

Open your purchase folder, you will see a file with name **Emma-(Free or Premium)-Version.xml**

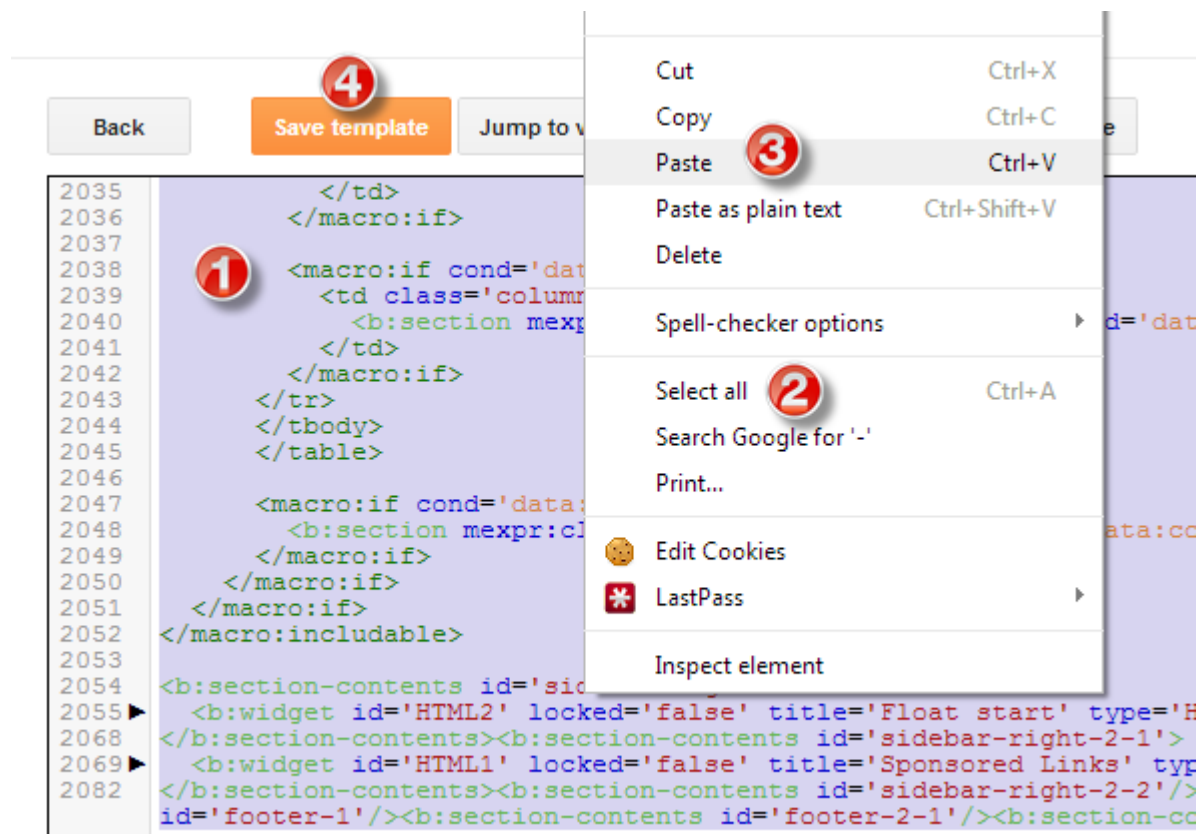

Open this XML file with a text editor (Notepad or something like that). Then select all text and copy (Ctrl+A, Ctrl+C in Window).

Return to your blog dashboard, access your **Template** menu, click **Edit HTML**

The screenshot shows the Blogger dashboard interface. At the top, there's a header with the Blogger logo, a pencil icon, a document icon, and a 'View blog' button. Below this is a section titled 'My blogs' with a blacked-out blog name followed by a dot and the word 'Template'. On the left sidebar, there's a 'New post' button and a list of menu items: Overview, Posts, Pages, Comments, Google+, Stats, Earnings, Layout, Template (highlighted with a red circle and the number 1), and Settings. The main content area has a heading 'Start with a base template and customize your background, layout, colors'. Below this are two preview cards: 'Live on Blog' and 'Mobile'. The 'Live on Blog' card shows a desktop preview of a blog layout with a 'Customize' button and an 'Edit HTML' button (highlighted with a red circle and the number 2). The 'Mobile' card shows a mobile preview of a blog layout with a settings gear icon. At the bottom, there's a 'Simple' template preview.

In **Editor HTML** window, select all old code and paste the new code that you copied from the release file into code field. Then, click **Save template**.

4. Setup The Slider

Slider Works automatically with latest post.

But you need to make sure few things :

1. Your Blog Must be public from settings
2. Your Blog Feed Set to be full from settings -> other -> blog feed.

3. Your blog post has at least One label in you latest (5) posts.

Atleast one label example : **Sport** is just an example.
