**Hilary Blogger Template Installation Documentation**, a step to step guide to help you out to set up your blog easy way.

First of all, Thank you for Downloading our template if you haven't done yet you can get it from here : Hilary Blogger Template . You check the live demo through the button below and also Please Read this documentation carefully in order to set up your blog and please note that there's no support for free users.

## 1. Installation

Open your purchase folder, you will see a file with name **Hilary-(Free or Premium)-Version.xml**

Open this XML file with a text editor (Notepad or something like that). Then select all text and copy (Ctrl+A, Ctrl+C in Window).

Return to your blog dashboard, access your **Template** menu, click **Edit HTML**

The screenshot shows the Blogger dashboard interface. At the top, there's a header with the Blogger logo and a 'View blog' button. Below this, the 'My blogs' section shows a list of blogs with a red circle and the number 1 highlighting the 'Template' menu item. The main content area displays a preview of a blog template with a red circle and the number 2 highlighting the 'Edit HTML' button. The left sidebar contains a list of navigation options: Overview, Posts, Pages, Comments, Google+, Stats, Earnings, Layout, Template (highlighted with a red circle and the number 1), and Settings.

In **Editor HTML** window, select all old code and paste the new code that you copied from the release file into code field. Then, click **Save template**.

## 4. Setup The Slider

Slider Works automatically with latest post.

But you need to make sure few things :

1. Your Blog Must be public from settings
2. Your Blog Feed Set to be full from settings -> other -> blog feed.
3. Your blog post has at least One label in you latest (5) posts.

Atleast one label example : **Sport** is just an example.

4. `<div class="about-me">`

5. ``

6.

```
<p>Lorem ipsum dolor sit amet, consectetur adipiscing elit.  
Praesent non leo vestibulum, condimentum elit non, venenatis  
eros.</p></div>
```

7. Change Image Url with yours URL link and text with your text.

## 5. Widget

Access your blog **Layout** > click **Add a Gadget** > **HTML/JavaScript** on **Sidebar** or **Footer** section, you must place the following names highlighted in blue below.

Now add this code : **3/recentposts**

you can increase / decrease this value 3 – its defines how many posts.
