INSTRUCTIONS

Downloading and installing this font is very simple.

Once you have unzipped the font folder, you will find .OTF files of the font(s). Double click the font files and click “Install Font”. Once this is done you will find this font in your font book or font library of choice. If the font is not showing up in your program, try restarting and reopening the program.

Thank you so much for downloading a font from NienowBrand. One of the main reasons I create these is to see the immense talent that uses them. Please tag **@nienowbrand** or send your work my way so I can see the amazing work you create with it.

As a thanks, use code **THANKYOU** for **15% OFF** your next NienowBrand purchase.

THANKS FOR
YOUR SUPPORT!
